

Made In China

10ft x 14ft Rectangle Combo

Got a Problem building your trampoline? Call us on 0344 800 4060 and we can help

Patent no: DE602006006495D1, EP1721640B1 and US7628731

WARNING: Read these assembly instructions carefully before attempting to assemble or use this product. Keep this user guide in a safe place for future reference.

IMPORTANT INFORMATION

- . WARNING! ADULT SUPERVISION & GUIDANCE REQUIRED AT ALL TIMES.
- . Recommended age 6+ years.
- . No somersaults or flips can cause serious injury.

WARNINGS!

- . Only for domestic use.
- . Maximum user weight limit 140 kg.
- . Not suitable for children under 36 months small parts, choking hazard.
- . Outdoor use only.
- . The trampoline should be assembled by an adult in accordance with assembly instructions and checked in every instance before use.
- . Only one user. Collision hazard.
- . Always close the net opening before jumping.
- . Remove footwear before jumping on the trampoline.
- . Do not use the mat / jumping bed when it is wet.
- . Empty pockets and hands before jumping.
- . Always jump in the middle off the mat / jumping bed.
- . Do not eat whilst jumping.
- . Do not exit by a jump.
- . Limit the time of continuous usage (make regular stops).
- . Do not use in strong wind conditions and secure the trampoline.
- . The net should be replaced every 1 year.

ADVISORY

- . This trampoline is not intended to be buried in the ground.
- . The following product dimension relate to this trampoline:
- Height from ground to top rail: 89 cm (0.89m)
- Height from ground to top of enclosure: 278 cm (2.78m)
- Height from top rail to top of enclosure: 189 cm (1.89m)
- . The trampoline must be placed on a level surface at least 2m from any structures or obstructions such as fence, garage, house, overhanging branches, laundry lines or electrical wires.
- . Do not install the trampoline over concrete, asphalt or any other hard surface not at proximity of other conflicting installation, such as paddling / swimming pools, swings, slides or climbing frames.
- . Inspect trampoline / enclosure net before each use. Any damaged or worn parts must be replaced before using the trampoline (see spare parts page 19).
- . If an access ladder is used it should be removed when trampoline is not in use.
- . Make sure there are no children / animals / obstructions underneath the trampoline.
- . Access the trampoline through the door of the enclosure net only. Making sure you securely close it before bouncing.
- . Please don't use when it's windy or rainy as this can cause you slip and become injured.
- . Don't intentionally rebound off the enclosure net as this will weaken it.
- . Only attach manufacturer approved accessories to the trampoline and enclosure net.
- . Always jump in the middle of the mat and practice bounce techniques safety with adult supervision and guidance.
- . Jump without shoe.
- . In certain countries during winter period, the snow load and the very low temperature can damage the trampoline. It is recommended to remove the snow and store the mat and the enclosure indoor.

IMPORTANT PRECAUTIONS

- Do not land on your head or neck.
- Paralysis or death can result, even if you land in the middle of the jumping surface.
- To reduce the chance of landing on your head or neck, do not do somersaults (flips).
- Avoid bouncing when tired.

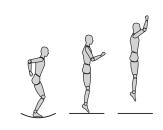

- Only 1 user allowed at any one time.
- Multiple jumpers increase the chances of loss of control, collision and falling off. This can result in serious injury to head, neck, arms or legs.

JUMPING INSTRUCTIONS

Fundamental Bounce

- Start from a standing position with 1. your head erect and your eyes on the frame pad.
- Swing your arms forward and up in a 2. circular motion.
- 3. Bring your feet together and point your toes downward while in the air.
- 4. Keep your feet about 30 cm (15 in.) apart from when landing on the bed.

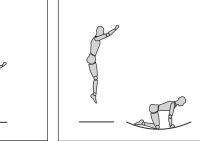

Knee Drop

- Start bouncing from a standing 1. position, keeping your eyes on the frame pad.
- Land on your knees, keeping your 2. back straight and your body erect.
- 3. Come back up to an erect position.

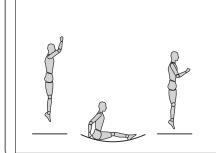

Hand and Knee Drop

- Start bouncing from a standing 1. position, keeping your eyes on the frame pad.
- Land on the bed on your hands and 2. knees.
- 3. Push with your hands and come back up to an erect position.

Seat Drop

- Land in a sitting position with your 1. legs parallel to the bed.
- 2. Place your hands on the bed beside your hips.
- 3. Push with your hands to return to an erect position.

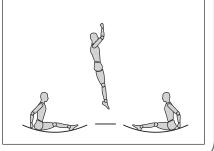

1.

- your arms to begin turning your body in the opposite direction. Turn your head and shoulders 2.
- toward the direction that your body is turning.
- Keep your back parallel to the bed 3. and your head up.
- 4. After completing a half turn, land in the front drop position.

Swivel Hips

- 1. Start with a seat drop.
- 2. Turn your head to the left or right and swing your arms up in the same direction.
- Turn your hips in the same direction 3. as your head and arms, completing a twist.
- 4. Land in the seat drop position.

CARE & MAINTENANCE

Regular care and maintenance of your trampoline is required. This will help prolong its life and reduce the possibility of injury. Neglecting this can lead to a risk for users.

Inspect your trampoline before each use using the checklist below as a guide. Take particular care in doing this at the start of each season and at regular intervals. Ensure all parts are in tact and cannot become dislodged during play, tighten any screws or nuts and bolts where required.

IMPORTANT: If any faults are found, the trampoline **MUST NOT BE USED**. We advise that the trampoline is dismantled and placed in a dry place until new parts are fitted.

PART	CHECKLIST	ОК	NOT OK
All Parts	Securely attached		
	Correctly positioned		
	No sharp edges or points present		
	No missing parts		
Springs	No damage <i>(bent / broken)</i>		
	No missing parts		
Frame / Enclosure Poles	No bent parts		
	No damage		
	No rusting or corrosion		
Bed / Enclosure Net / Frame Pad / Foam Tubes	No missing parts (e.g. V-rings / Ties / Zips etc.)		
	No sagging		
	No damage (Holes / Rips / Fraying / Tearing)		

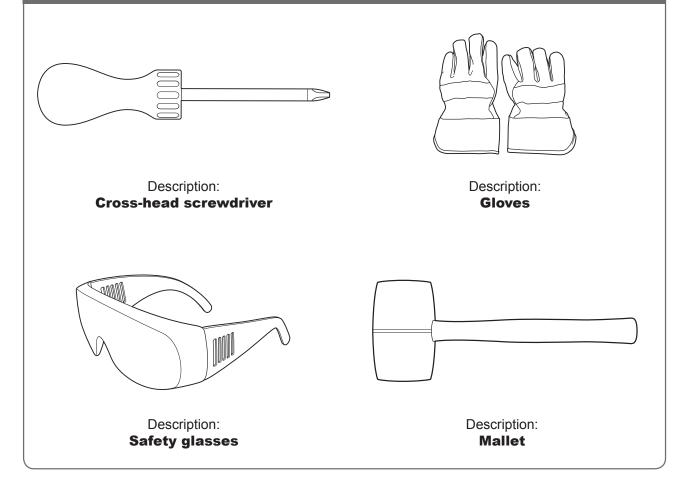

Looking after your trampoline:

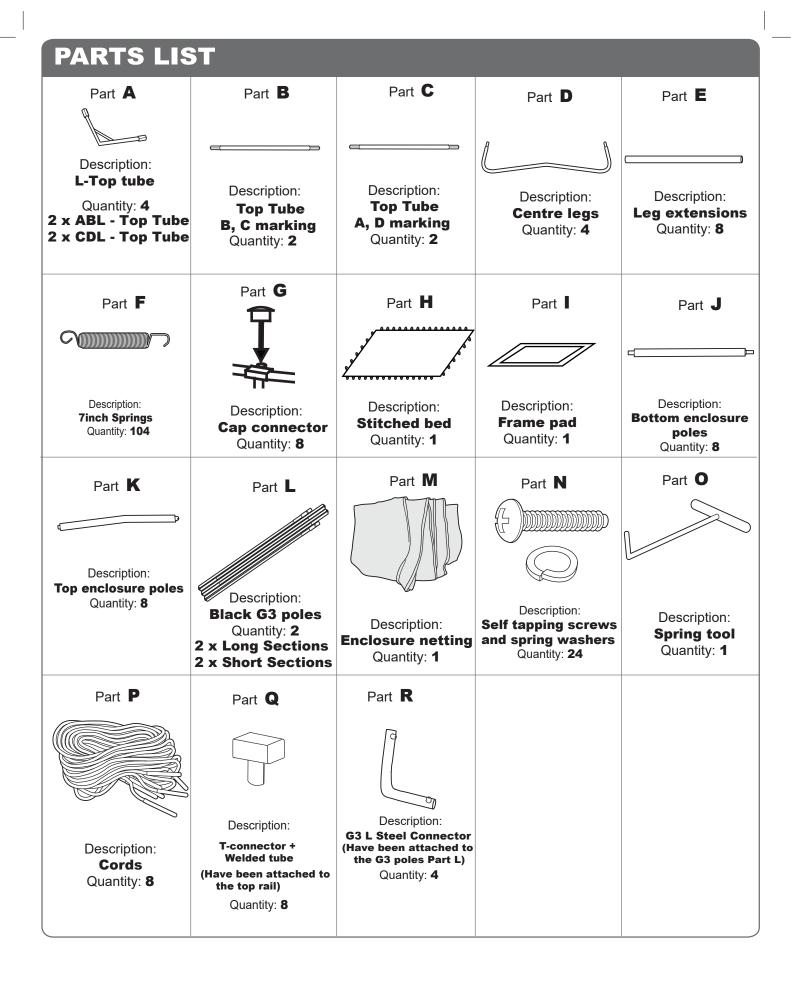

- Use trampoline as advised on pages 2-3. Excess weight and improper use will damage it and cause it to break easily.
- **Keep trampoline clean.** If any part becomes dirty, clean with a damp cloth and dry thoroughly. Do not use any abrasive cleaners as this could damage the product.
- Store enclosure net and frame pad in a dry place when not in use. Prolonged exposure to sun and harsh weather can shorten its life.
- Keep bed in good condition by protecting it with a cover (available to buy from our website). Common damage can be caused by water pooling, garden/outdoor debris landing on it, sparks from nearby bonfires or firework displays landing on it.
- Keep animals/pets away from the trampoline, their claws can damage it.
- **Protect from high winds.** A trampoline can act like a sail in strong winds. It can be blown over which can cause damage to the frame and surrounding areas. We recommend that it is moved to a sheltered location and secured to the ground *(tie-down kit available from our website)*, or dismantled and stored away.
- **Dismantle and store away in a dry place if not being used for long periods.** Follow assembly instructions in reverse order making sure the springs are removed before dismantling frame.
- **Take care when moving trampoline.** To be lifted by 2 people. Lift slightly off the ground, keeping the frame horizontal. Never drag to move it as this can displace parts. Always check that parts are positioned correctly after moving.

BUILDING YOUR TRAMPOLINE

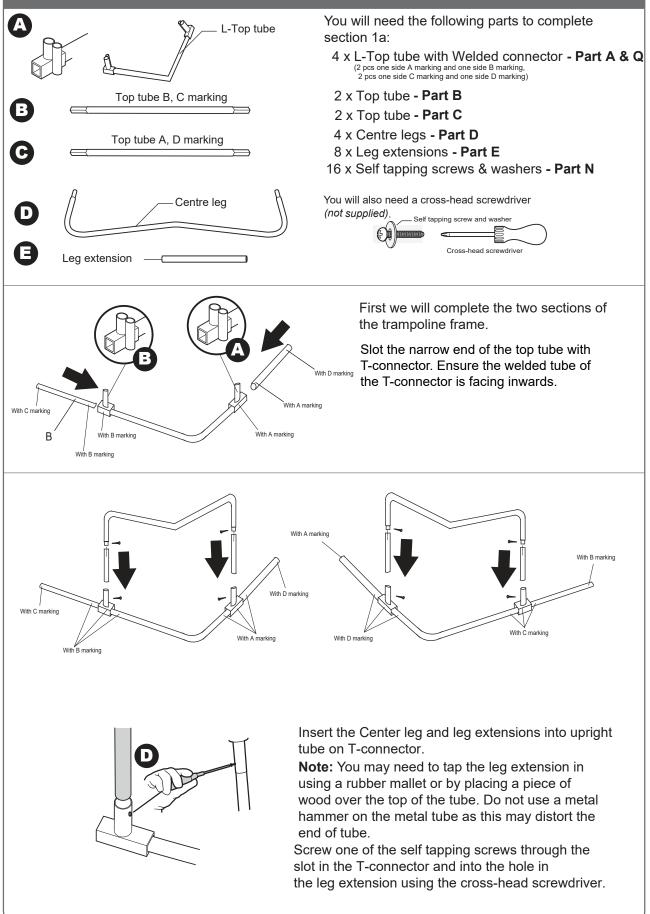

- **1.** This is a 2 person build.
- 2. Time for build is approximately 2 hours.
- **3.** Choose a good location:
 - On a level surface that is soft (wood chippings, sand or grass).
 - Ensure adequate overhead clearance. A minimum of 24ft (7.3m) from ground level, away from wires, trees and other possible hazards.
 - Ensure a clear space of 8.2ft (2.5m) around sides, away from walls, fences, structures, tarmac and other hard surfaces and play areas.

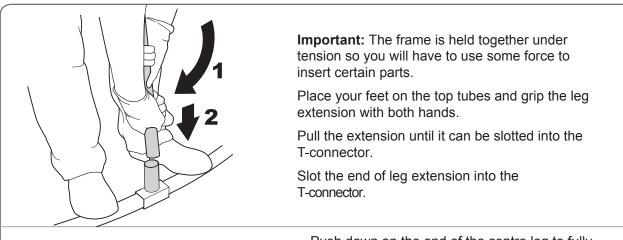

WHAT YOU WILL NEED

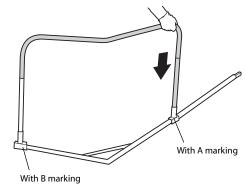

STEP 1 : ASSEMBLING THE FRAME

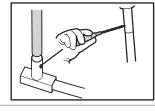

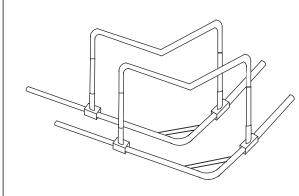

Push down on the end of the centre leg to fully inset the leg extension into the T-connector.

Screw one of the self tapping screws through the slot in the T-connector and into the hole in the leg extension using the cross-head screwdriver.

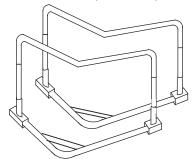

You have now completed the first frame section.

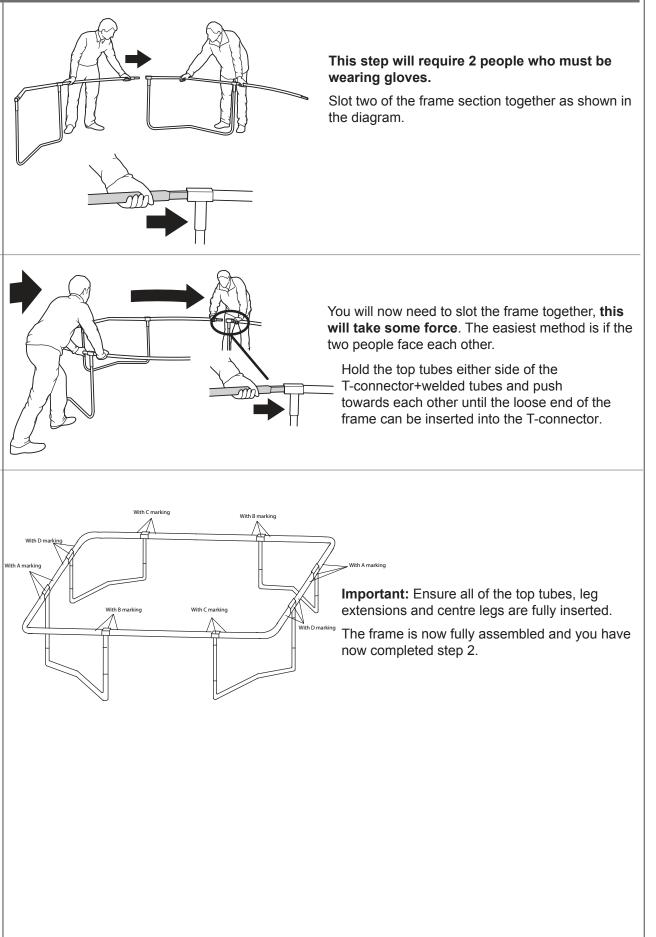

Repeat the last two steps until you have assembled the remaining sections of the trampolines frame.

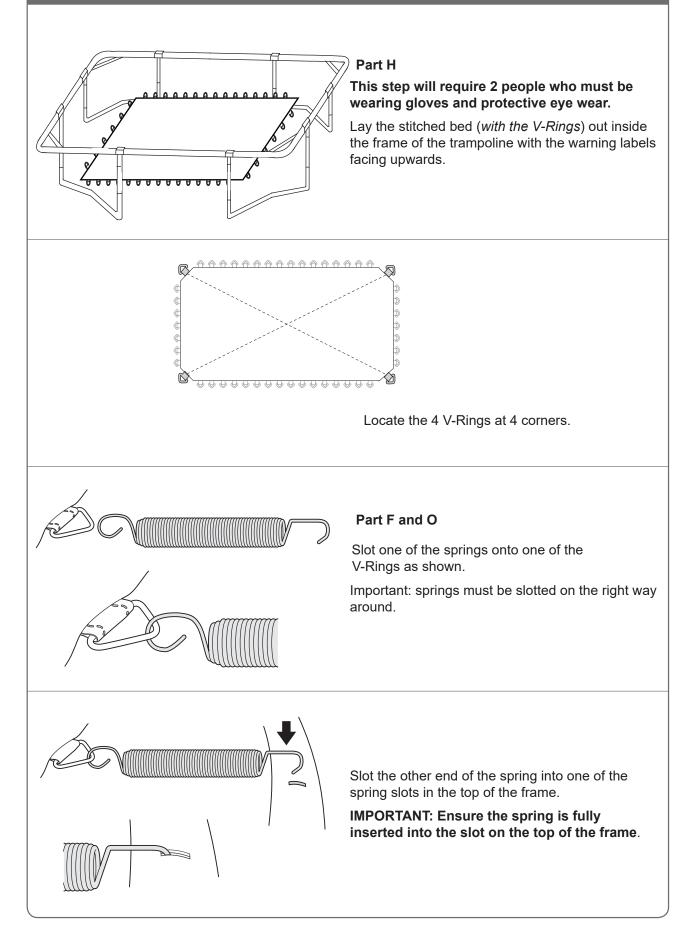

You have now completed step 1.

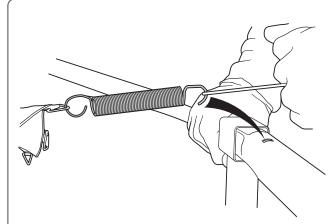

STEP 2 : ASSEMBLING THE FRAME

STEP 3 : FITTING THE STITCHED BED

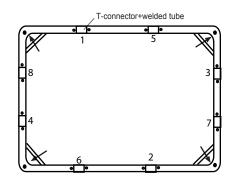

Attach a spring to the corner V-ring.

Important: You will now need to use the spring tool to attach the spring to the frame.

Hook the spring tool onto end of spring, and pull until the spring can be slotted into the spring slot on the top of the frame.

IMPORTANT: Ensure the spring is fully inserted into the slot on the top of the frame.

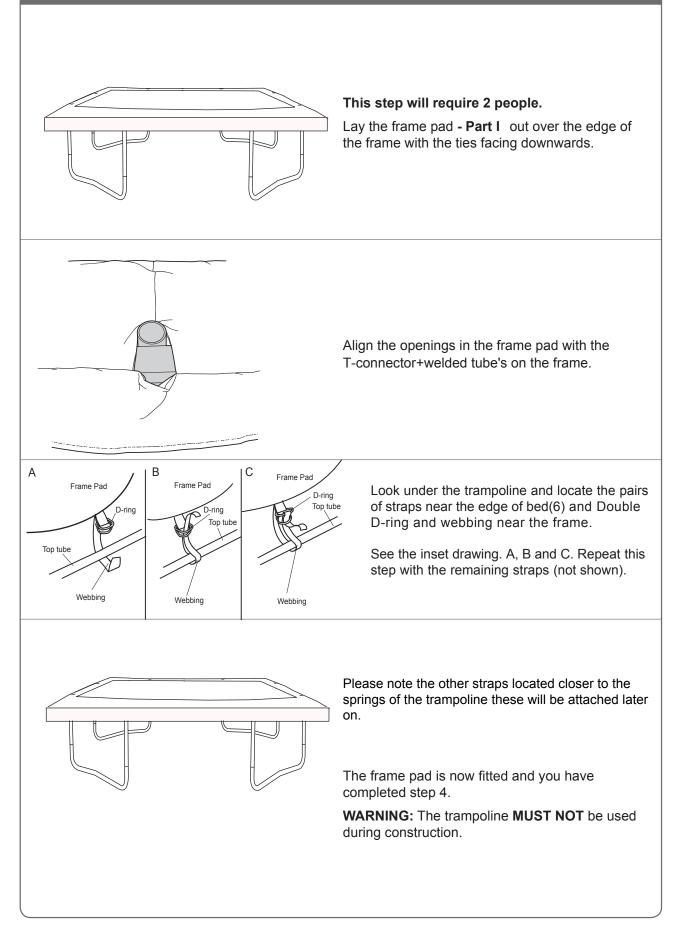

Attach four more springs to the V-Rings then attach them to the frame next to the T-connector+welded tube.

Continue to attach springs in the same sequence as above: in the middle of each section, making sure the next spring is attached on the opposite side to even out the tension.

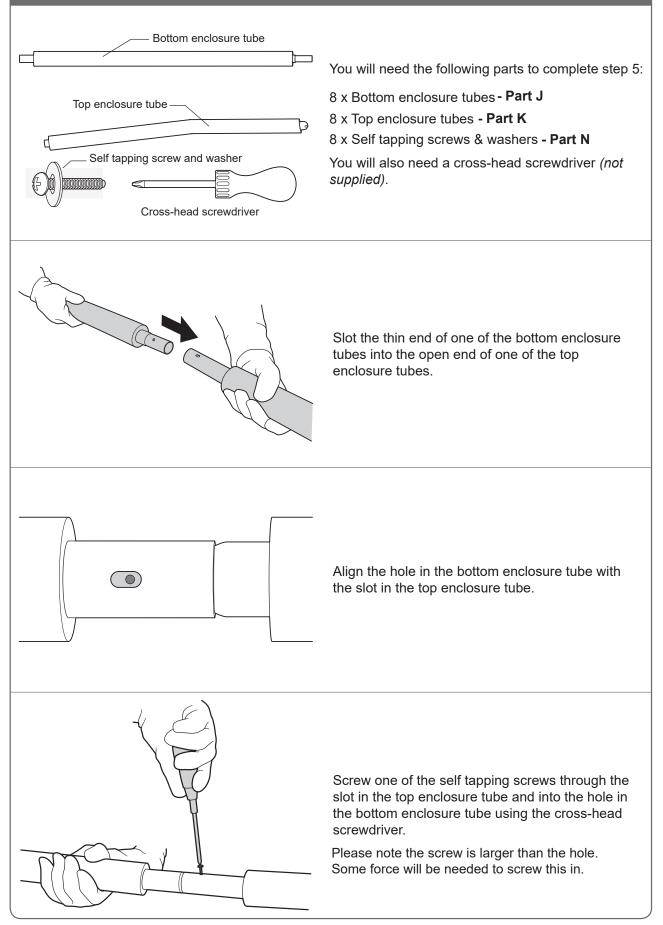

Important: The stitched bed is designed like elastic to be bouncy, which means that during construction it may look like it won't fit. Please note that it will stretch to the correct size when attaching the springs, this may take some force.

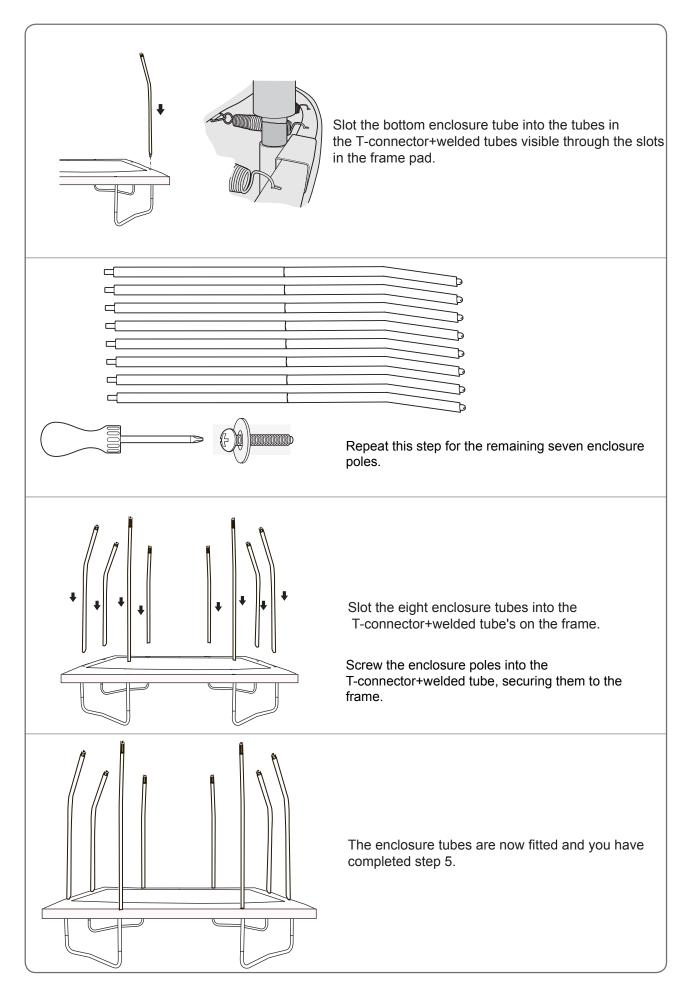

The stitched bed is now fitted and you have completed step 3.

STEP 4 : FITTING THE FRAME PAD

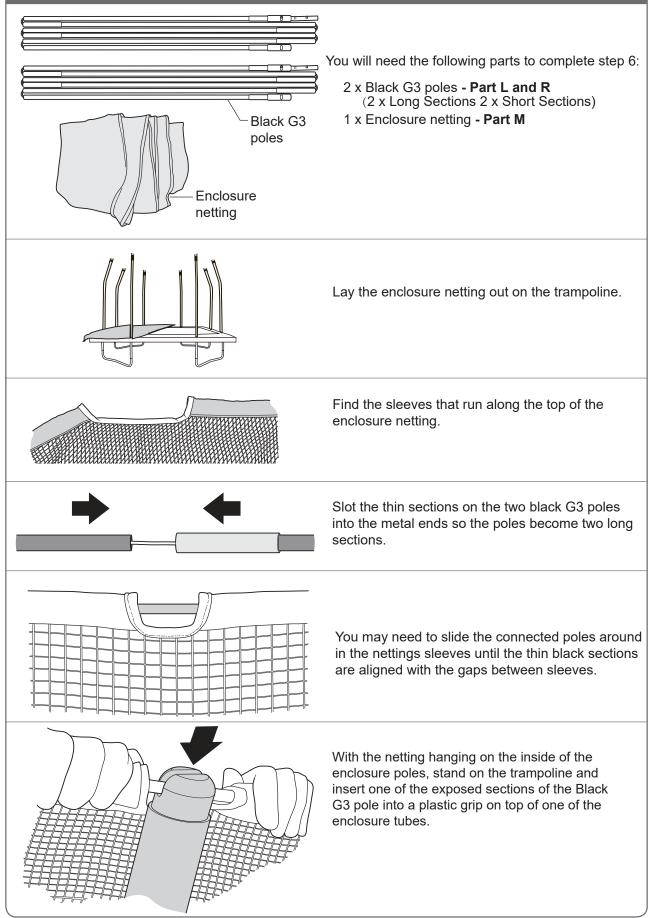

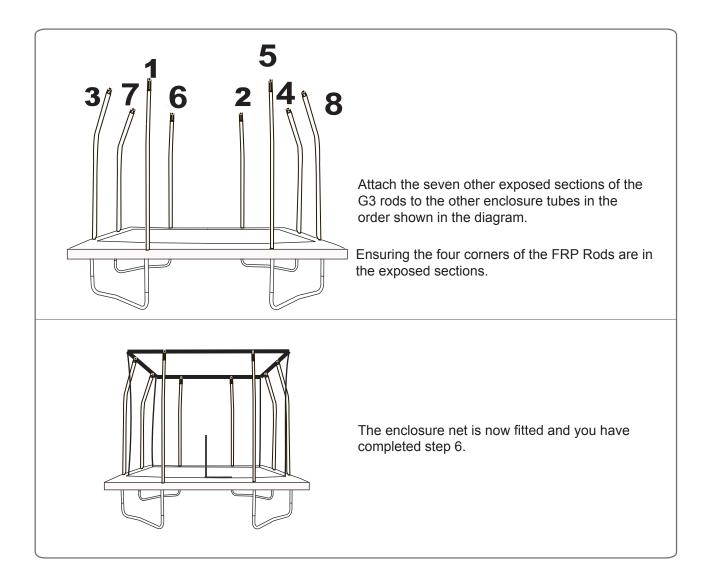

STEP 5 : FITTING THE ENCLOSURE TUBES

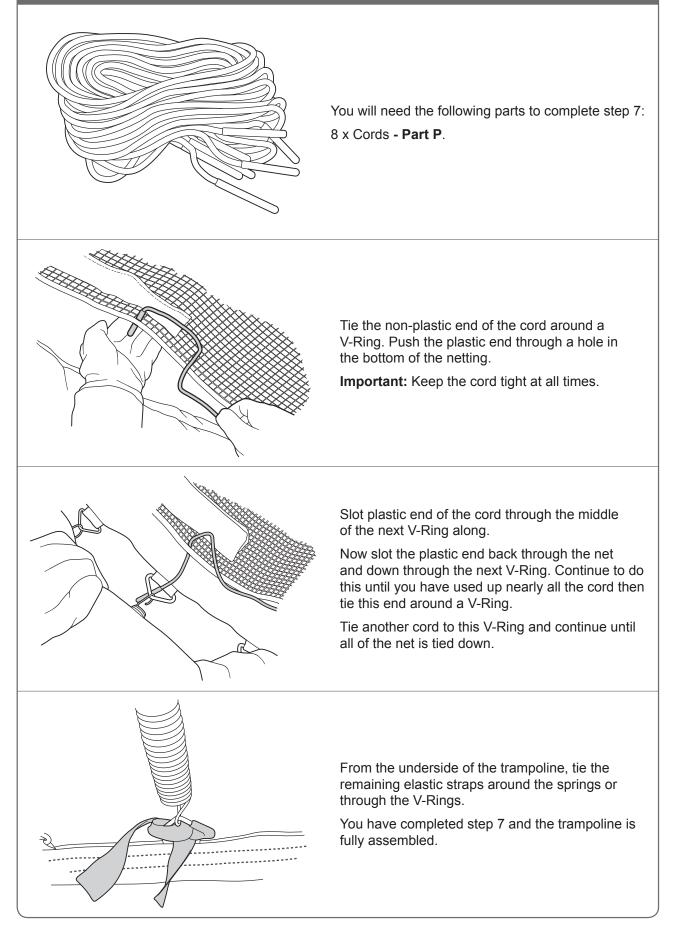

STEP 6 : FITTING THE ENCLOSURE NETTING

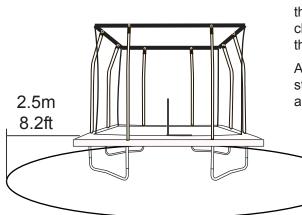

STEP 7 : ATTACHING THE BOTTOM OF THE NET

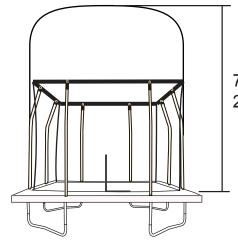

USING THE TRAMPOLINE

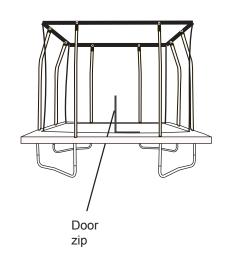

Before using your trampoline, check again that there is enough clearance around it. Maintain a clear space of 2.5 metres (8.2 feet) on all sides of the trampoline.

Also check that the area is free from walls, structures, fences, tarmac and other hard surfaces and other play areas.

7.3m Ensure that there is 7.3 metres (24 feet) clearance above the trampoline.

Also check that there are no overhanging objects in the area above the trampoline.

To enter the trampoline, unzip the door and climb in.

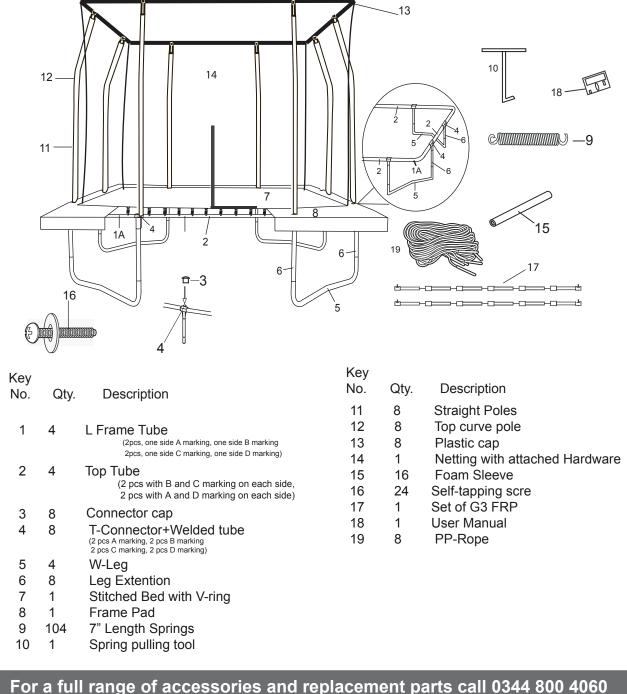

Always close the doorway before using the trampoline.

SPARE PARTS

To order replacement parts, you can email us on: customerservice@yjeurope.co.uk, or call our Customer Helpline on: 0344 800 4060.

To help us assist you, please provide the following information when calling:

- The PRODUCT DESCRIPTION: JKR1014G16
- The KEY No. and DESCRIPTION of the part (see parts list below).
- The quantity needed.
- The desired method of shipping.

or a full range of accessories and replacement parts call 0344 800 40 or visit our web site at: www.jumpking.eu
